

# WALLEYS QUARRY

## PRESS INFORMATION

**Date: 12.08.2021**

**Title: Community Charter**

Over the years we have sought to build a viable local business at Walleys Quarry Landfill site in Newcastle-Under-Lyme. We are proud to have done so, employing many people within the community and beyond, and contributing to the local economy and good causes.

However, it is clear that the recent situation surrounding Walleys Quarry Landfill is challenging and distressing for our community, staff and local campaigners.

That is why we have created the Walleys Quarry Community Charter. This is our five-point commitment to local residents and businesses to do more to engage with you. We will do everything that we can – alongside the local community and others – to help remedy the situation as soon as possible.

**We commit to:**

### **BEING A BETTER, MORE COMMUNICATIVE, NEIGHBOUR**

- a) We will update our newly created Walleys Quarry specific social channels on a weekly basis in order to give key updates to the local community and interested parties.
- b) We will, in partnership with Staffordshire Chambers of Commerce, to run roundtables with a cross section of local businesses.

### **BEING MORE TRANSPARENT ABOUT OUR OPERATIONS**

- a) We will publish full, verbatim minutes of our Liaison Committee sessions, which bring together local council leaders, regulators, and residents to update on our work at the site to investigate the current situation.
- b) We will offer site visits to small groups of local residents and businesses every quarter to show them how the site works and what we are doing to investigate the current situation.
- c) We will do more to explain what we do at Walleys Quarry in a clear and concise manner, for example, with infographics on our website.
